

Capability Statement

IT Modernization | Cybersecurity | Workforce Development | Program Management

The Cyber Consultant, LLC (TCC) delivers cybersecurity, information technology, and workforce training and readiness services to federal, state, and local government. We provide cleared delivery personnel and a vetted partner network to perform at contract scale, and we hold proprietary capability in AI adoption readiness measurement that directly supports federal AI workforce mandates (OMB M-25-21). We perform as a prime and as a subcontractor and staff to contract requirements on award.

What sets TCC apart from the competition?

- Cleared, Credentialed Personnel
- Cloud and AI implementation depth
- Proven Training Capabilities at Scale
- Proprietary AI readiness diagnostic

CORE CAPABILITIES

Cloud, IT Modernization & Info Management

- Cloud architecture, migration, and modernization (Microsoft Azure, AWS, M365)
- Microsoft 365, SharePoint, and Power Platform deployment and workflow automation
- Enterprise systems administration and large-scale endpoint and OS migration
- Information and records management

Cybersecurity & Information Security

- Zero Trust architecture and enterprise security
- Information security program, policy, and governance documentation support
- Risk and security control assessment support (NIST-aligned)
- Cleared cybersecurity and IT personnel for staff augmentation and managed support

Federal and State Certifications

- Woman-Owned Small Business (WOSB)
- Economically Disadvantaged Woman-Owned Small Business (EDWOSB)
